

Satellite Imagery & Earth Observation Solutions

Reliable, high-performance geospatial data for critical decision-making across government and commercial sectors

Advanced satellite imagery platform delivering reliable, high- performance geospatial data to support critical decision-making across government and commercial sectors. We offer high-resolution, multi-spectral imagery across a range of spatial resolutions and spectral bands, integrating cutting-edge imaging technology with operational excellence and market-competitive pricing. Our solutions enable scalable monitoring, infrastructure and asset assessment, sustainable development initiatives, urban planning, precision agriculture, forestry management, environmental protection, and timely emergency response operations.

WHY US

- Fastest Satellite Image Provider in Pakistan (Near Real-time)
- High-Quality Imagery
- Access to 100+ Satellite Constellations
- Integrated Ground Station Infrastructure
- Operational Excellence & Reliability
- Timely & Priority Data Access
- Cost-Optimized Solutions
- Scalable & Flexible Service Models
- Actionable Geospatial Intelligence
- Multi-Sector Domain Expertise
- Secure & Trusted Operations

Satellite Imagery & Earth Observation Solutions

Parameter	Nominal Value
Resolution	0.15 m (HD), 0.5 m, 0.75 m, 1 m, 10 m
Swath	15 km - 150 km
Imaging Products	HD, VHR, Multispectral Hyperspectral, SAR, IR, DOM
Imaging Modes	Spot, Strip, Stereoscopic, Mosaic
Service Modes	Archive, Flexible Tasking and Assured Tasking
